

## EXPLANATION OF THE PROCUREMENT DOCUMENTS II.

**CONTRACTING AUTHORITY:** Czech University of Life Sciences Prague  
**Address of registered office:** Kamýcká 129, 165 00 Praha - Suchbát  
**Person authorised:** Ing. Jana Vohralíková, bursar  
**Business ID:** 60460709  
**Contracting authority profile:** <https://zakazky.czu.cz>

In Prague on 14<sup>th</sup> June 2019

### EXPLANATION OF THE PROCUREMENT DOCUMENTS II.

In accordance with Section 98 of Act No. 134/2016 Coll., On Public Procurement, as amended (hereinafter referred to as the "Act"), the above mentioned Contracting Authority communicates the following explanation / amendment or supplement to the tender dossier relating to the public contract "RNA library building including rRNA depletion and RNA sequencing".

#### Wording of the request for explanation of procurement documents No. 1:

As invoicing process in CZK is very difficult, can be the bid placed in EUR?

#### The explanation of the procurement documents No. 1:

No, Contracting Authority will accept bids only in CZK.

#### Wording of the request for explanation of procurement documents No. 2:

As there are many different kits to process low input RNA material, I was wondering about the expected parameters of the RNA to be submitted (amount/quality)?

#### The explanation of the procurement documents No. 2:

Contracting authority has no expected parameters.

#### Wording of the request for explanation of procurement documents No. 3:

HiSeq4000/2500 is not the most economical platform- we would suggest using NovaSeq6000. The specification says: 8 lanes, 150 samples. Did I understand correctly we aim in 65-80M reads per sample?

#### The explanation of the procurement documents No. 3:

Contracting authority accepts NovaSeq6000 platform. RANseq will be used for 2 complementary purposes, transcriptomes and metatranscriptomes. Contracting authority requires following

sequencing: 1. 36 transcriptomes of 10 M reads per sample (bacterial transcriptomes), 2. 84 transcriptomes (48 termite tissue transcriptomes + 36 fungal transcriptomes) of 20 M reads per sample and 3.54 metatranscriptomes (termite hindguts, termite food, termite nest) of 80 M reads per sample.

**Wording of the request for explanation of procurement documents No. 4:**

We do not have a certificate for electronic signature, is that an issue? Can we still apply to the public contract or is this mandatory to have electronic signature?

**The explanation of the procurement documents No. 4:**

Electronic signature is not needed in order to submit a bid.

**The explanation of the procurement documents No. 5:**

Contracting Authority decides, in accordance with Section 98 (4) of the Act, to extend the deadline for submission of tenders, until 1st July 2019, until 9:00.

Best regards
